Dear Salvatore,

As you may be aware, EFPIA and PhRMA made an international commitment in July of 2013 to make clinical trial data available to researchers. In order to continue our efforts to understand the needs of our key stakeholders, we hope you can take a few minutes of your time to answer this short survey about the current ways in which you use clinical data as well as the barriers and opportunities to improve the processes.

[Click here to launch the survey](#)

Your feedback to us will help us to be more informed in our discussions with regulators, patients groups, healthcare providers, and practitioners while working collaboratively to enhance the standard of care for patients. There are 7 questions in this survey. Your responses will be strictly confidential and all data will be presented in aggregate.

You can take the survey by [clicking here](#). Thank you in advance for your input.

Best regards,

Richard Bergström
